Washington State Methamphetamine Precursor Electronic Tracking System NPLEx Account Activation

In 2010 the Washington Legislature passed <u>RCW 69.43.110</u> to restrict the sale and purchase of non-prescription products containing ephedrine, pseudoephedrine, and phenylpropanolamine or their salts or isomers, or salts of isomers.

The law:

- Requires pharmacies to keep products containing methamphetamine precursors behind the counter where the public is not permitted or in a locked display case where it is not accessible to customers without assistance;
- Requires the retailer to record the name and address of the purchaser, the date and time of the sale, the name and the initials of the person conducting the transaction, the name of the product sold, and the total quantity in grams of the precursors being sold;
- Requires the customer to electronically or manually sign a record of any transactions when purchasing methamphetamine precursors;
- Updates the sales limits to match the federal restrictions-daily sales limit of 3.6 grams per purchaser and prohibits a purchaser from buying more than nine grams during a 30-day period; and
- Requires the Board of Pharmacy to implement a real-time electronic sales tracking system.
 - * Rules: WAC 246-869-070 through 120

Note: If your pharmacy sells ephedrine, pseudoephedrine, and/or phenylpropanolamine over the counter, you will need to set up an account to access and report to the National Precursor Log Exchange (NPLEx) by visiting: https://nplex.appriss.com.
